

ITE3162 - Interactive Web Development

Course Information

- **Course Code:** ITE3162
- **Course Name:** INTERACTIVE WEB DEVELOPMENT
- **Credits:** 10
- **Contact Hours:** 3hrs per week
- **Prerequisites:** Web Design & Database Systems,

ITE3162 - Interactive Web Development

Course outlines

Part 1: Front End – Web Dev Concepts

1. *Recap UI/UX Design*
2. ~~Recap on HTML, CSS, JavaScript~~
3. Bootstrap fundamentals

Part 2: Back End

1. Python Fundamentals
2. Introduction to Django Framework
3. API Concepts
4. Hands-on Projects Implementation

Expected Learning outcomes

- Apply **user-centered design** principles for intuitive web interfaces.
- Develop the ability to **design and structure responsive** web pages.
- Build responsive **web layouts using modern front-end** frameworks.
- Gain **practical skills on Python fundamentals**.
- Gain **proficiency in developing scalable** applications.
- Learn **to build, secure, and deploy full-stack web** applications using a modern back-end framework.
- Understand **deployment strategies** and application management.

Evaluation Criteria

- **Quiz (10 points)**
 - ❖ Regular quizzes to test concept understanding.
- **Assignment (20 points)**
 - ❖ Practical tasks to design and develop front-end and back-end features.
- **Group Project (20 points)**
 - ❖ Collaborative web application projects.

Resources - Books

1. "HTML & CSS QuickStart Guide: The Simplified Beginners Guide to Developing a Strong Coding Foundation, Building Responsive Websites, and Mastering the Fundamentals of Modern Web Design" by David Durocher (2021).
