ENTREPRENEURSHIP AND INNOVATION CAT 1

LEVEL I SEMESTER II

DATE: 20/03/2025

TIME: 1 hour

DO ALL QUESTIONS

QUESTIONS 1 TO 15: CHOOSE THE BEST ANSWER/S FROM THE GIVEN MULTIPLE CHOICES (1 Mark each)

QN1: Which of the following statements best describes entrepreneurship?

- A) A process that guarantees success if you have a good idea
- B) A journey of risk-taking, innovation, and value creation
- C) A business that only involves selling products online
- D) A type of employment where people work under a boss

QN2: Which of these situations best represents entrepreneurship innovation?

- A) A company producing the same product for 20 years without changes
- B) A business improving an old product by adding new features
- C) A company following the exact business model of its competitor
- D) A shopkeeper selling the same items at a lower price

QN3: Which of the following is not a characteristic of an entrepreneur?

- A) Willingness to take risks
- B) Preferring a guaranteed monthly salary
- C) Ability to identify opportunities
- D) Passion for solving problems

QN4: If an entrepreneur has a brilliant idea but lacks resources, what should they do?

- A) Abandon the idea since resources determine success
- B) Look for investors, partners, or alternative funding options
- C) Wait until they have enough personal savings
- D) Focus only on businesses that require no resources

QN5: Which of the following best defines an enterprise?

- A) A large corporation only
- B) A business that only operates in multiple countries
- C) Any organization engaged in business activities

D) A government-run company

QN6: A small business can be identified by:

- A) Its inability to grow into a big business
- B) The fact that it does not require any entrepreneurial skills
- C) A limited number of employees and lower revenue compared to large businesses

D) Being a business that never faces competition

QN7: What is the most significant way the business environment affects entrepreneurs?

- A) It determines whether a business will succeed or fail
- B) It eliminates the need for marketing

- C) It forces all businesses to follow the same strategy
D) It provides opportunities and challenges that entrepreneurs must navigate

QN8: What is business incubation?

- A) A process where businesses immediately become profitable
B) A method of preventing business failures completely
C) A strategy where large companies acquire smaller startups
D) A program that supports startups by providing resources, mentorship, and office space

QN9: Which of the following factors make a business idea more likely to succeed? *(Select all that apply)*

- A) It takes advantage of surrounding opportunities (e.g., market trends, technology, social changes)
B) It is simple and easy to understand for both customers and investors
C) It requires customers to completely change their habits without clear benefits
D) It can be tested and improved quickly (e.g., through prototypes or MVPs)
E) It is extremely expensive to implement and has no clear revenue model
F) It solves a problem people are willing to pay for

QN10: What is the primary purpose of a feasibility analysis?

- A) To create a detailed business plan
B) To determine the financial performance of a business idea
C) To assess the viability of a business idea before launching
D) To evaluate competitors' business strategies

QN11: A person who starts a retail or wholesale business is classified as a:

- A) Trading Entrepreneur
B) Agricultural Entrepreneur
C) Industrial Entrepreneur
D) Corporate Entrepreneur

QN12: An entrepreneur who starts a large-scale, technology-based production business is known as a:

- A) Industrial Entrepreneur
B) Trading Entrepreneur
C) Service Entrepreneur

QN13: What is the first step in turning a business idea into a viable venture?

- A) Creating a marketing strategy
B) Conducting market research
C) Developing a financial plan
D) Securing investors

QN14: Tom has an idea for a tech startup but feels overwhelmed by the idea of starting it all on his own. After discussing his idea with a few colleagues, he realizes that his business idea could be a lot stronger if he brought in people with complementary skills, like marketing, design, and engineering.

Question: Based on Tom's situation, which of the following is correct?

- A) Tom should only start his business alone to ensure it is his vision.
B) Businesses are most often successful when they are started by a team with diverse skills.
C) Tom's business will fail if he involves others in the process.
D) Entrepreneurs should never share ownership of their business.

QN15: Jessica is starting her own software company and often hears that entrepreneurs need to be the smartest people in the room to succeed. However, as she interacts with potential customers, she realizes that her ability to understand their needs and quickly adapt her product is what sets her apart, rather than her technical knowledge alone.

Question: Which of the following is true about Jessica's experience?

- A) Entrepreneurs need to be the smartest in the room to succeed.
- B) Intelligence is not the only factor; adaptability and understanding customers are equally important.
- C) Jessica's success depends entirely on her technical expertise.
- D) Jessica is not fit to be an entrepreneur because she is not the smartest in the room.
