

Department of Humanities and Language Education

Centre for Language Enhancement

Module Title: English for General Purposes

Date:

Semester I

Module code: EGP1111

Duration: 2 hours

Final Examination

SECTION A: COMPREHENSION QUESTIONS /20 marks

Read the following passage carefully and answer questions

Special Needs Education is a critical field of study for university students pursuing a career in education, especially those enrolled in programs that focus on inclusive and adaptive learning environments. In the College of Education, students studying Special Needs with Education receive a comprehensive curriculum designed to equip them with the skills and knowledge necessary to support learners with diverse abilities. This curriculum includes theoretical foundations, practical strategies, and the development of critical awareness about the complexities of disability and inclusion. These programs aim to prepare future educators to create learning spaces where every student, regardless of their individual needs, can access quality education and participate meaningfully.

One of the key components of the Special Needs Education curriculum is understanding the broad spectrum of disabilities, which range from cognitive and intellectual challenges to physical and sensory impairments. University students learn about the characteristics and educational implications of each type of disability. They study individualized education plans (IEPs) and how to tailor instruction to meet varied learning profiles. In addition to classroom strategies, the curriculum emphasizes collaboration with parents, caregivers, and specialists to foster a holistic approach to education. Students also engage in practical training, such as fieldwork and internships, where they gain firsthand experience in inclusive classrooms.

Special Needs Education programs also place significant emphasis on understanding legal and policy frameworks that impact educational practice. This includes studying international

conventions such as the United Nations Convention on the Rights of Persons with Disabilities (CRPD), as well as national policies that promote inclusive education. Students explore the evolution of these policies and their implications for classroom practice, ensuring that future teachers are well-versed in their roles and responsibilities in advocating for and implementing inclusive education practices.

Another important aspect of the program is the focus on innovative teaching methodologies and the use of assistive technologies. University students are introduced to tools and resources that can enhance learning for students with disabilities, such as screen readers, braille resources, and adaptive software. This component of the program emphasizes the importance of technology in bridging educational gaps and empowering students to participate fully in the learning process. Additionally, students learn to evaluate and select appropriate teaching aids based on individual learner needs.

Finally, the program emphasizes the development of empathy and reflective practice among future educators. By engaging in discussions, case studies, and reflective journals, students build a deeper understanding of the lived experiences of people with disabilities. This helps them to become not only skilled educators but also compassionate advocates for social justice and equity in education. Through a combination of academic coursework and experiential learning, students are well-prepared to contribute to inclusive educational communities that celebrate diversity and foster the potential of all learners.

Multiple Choice Questions (10 marks)

1. What is one of the primary goals of Special Needs Education in the university context?

A) To limit access to mainstream classrooms for students with disabilities

- B) To prepare educators to support all learners inclusively**
- C) To segregate students with disabilities from others
- D) To focus solely on cognitive disabilities

2. Which document helps tailor instruction for students with varied learning profiles?

- A) Classroom rules
- B) Individualized Education Plan (IEP)**
- C) General curriculum guidelines
- D) Standardized testing protocols

3. What is emphasized in the curriculum alongside theoretical learning?

- A) Emphasis on sports and extracurricular activities
- B) Practical training, such as fieldwork and internships**
- C) Memorization of legal texts
- D) Standardized testing preparation

4. Which international convention is studied in Special Needs Education programs?

- A) Universal Declaration of Human Rights
- B) United Nations Convention on the Rights of Persons with Disabilities (CRPD)**
- C) Kyoto Protocol
- D) International Labour Organization Convention

5. What aspect of Special Needs Education helps in understanding the broad spectrum of disabilities?

- A) Exclusive use of textbooks
- B) Studying characteristics and educational implications**
- C) Focus only on physical impairments
- D) Use of rote memorization

6. How is technology viewed within the Special Needs Education curriculum?

- A) As unnecessary for inclusive classrooms**

- B) As a tool to enhance learning and inclusion
- C) As a distraction for students
- D) As useful only for non-disabled students

7. What skills are university students encouraged to develop alongside academic learning?

- A) Reflective practice and empathy
- B) Physical fitness
- C) Memorization of facts
- D) Competitive classroom management

8. Which strategy is vital for creating inclusive learning environments according to the text?

- A) Isolating students based on ability
- B) Collaborating with parents and specialists
- C) Ignoring individual needs
- D) Teaching with outdated materials

9. What is a key feature of the experiential learning component in Special Needs Education?

- A) Theoretical exams only
- B) Fieldwork and real classroom experiences
- C) Online courses exclusively
- D) General lectures without interaction

10. Why is it important for students to study legal and policy frameworks?

- A) To know how to discipline students effectively
- B) To be aware of their roles and responsibilities in inclusive education
- C) To memorize legal jargon
- D) To ignore policy developments

Open-ended questions /10 marks(2 marks each)

1. Describe the importance of Individualized Education Plans (IEPs) in Special Needs Education. / 2marks)
2. Explain how practical training enhances the skills of university students studying Special Needs with Education. (2 marks)
3. Discuss the role of assistive technologies in inclusive education. (2 marks)
4. How do legal and policy frameworks influence teaching practices in inclusive classrooms? (2 marks)
5. Reflect on the importance of empathy and reflective practice for educators working with students with disabilities. (2 marks)

Section 2: Contextual Language structure (20 marks)

A. Fill in the blanks with the appropriate form of the verbs in parentheses. Use an appropriate verb tense as required. (10 marks, each question equals 1 mark)

1. Last weekend, I _____ (go) to the park with my family. We _____ (enjoy) a picnic by the lake.
2. While we _____ (eat), a flock of birds _____ (fly) over us.
3. My sister _____ (play) her guitar when it suddenly _____ (start) raining.
4. Since the picnic, I _____ (think) about how much fun we had.
5. My parents _____ (talk) about organizing another picnic next weekend.
6. Over the past month, we _____ (visit) three different parks.
7. While my brother _____ (ride) his bike, he _____ (see) a deer in the woods.
8. I _____ (never/see) a deer that close before!
9. By the time we _____ (leave) the park, it _____ (stop) raining.
10. We _____ (promise) to visit again soon and bring more friends.

B. Fill in the blanks with the appropriate form of the word in parentheses. Use either an adjective or an adverb as required. (10 marks, 1 mark for each question)

1. The teacher explained the lesson _____ (clear), so all the students understood it.
2. She is a very _____ (intelligent) student and always completes her work on time.
3. The baby cried _____ (loud) when he was hungry.
4. The roads were _____ (slippery) after the rain, so we drove _____ (careful).
5. He performed _____ (good) in the competition and received an award.
6. The mountain view was so _____ (beautiful) that we stopped to take pictures.
7. They worked _____ (hard) to finish the project before the deadline.
8. It was a _____ (quick) decision, but it turned out to be the right one.
9. She speaks English _____ (fluent) after years of practice.
10. The _____ (happy) children played in the park all afternoon.

Section C: Basic Writing /10 marks

- A. Below is a partial dialogue between Speaker A and Speaker B at a restaurant. Fill in the missing lines based on what Speaker B might say. Use appropriate expressions for a restaurant scenario. (5 marks)

Dialogue

Speaker A: Good evening! Welcome to our restaurant. How many people are dining with you tonight?

1. **Speaker B:**

Speaker A: Great! Would you prefer to sit indoors or outdoors?

2. **Speaker B:**

Speaker A: Here is our menu. Can I start you off with some drinks?

3. **Speaker B:**

Speaker A: Excellent choice! Are you ready to order your food, or would you like some more time?

4. **Speaker B:**

Speaker A: Alright, I'll bring your drinks and come back shortly to take your food order.

5. **Speaker B:**

- B. Below is a partial dialogue between Speaker A and Speaker B at a travelling and tour agency. Fill in the missing lines based on what Speaker B might say. Use appropriate expressions for a travel booking scenario. (5 marks)

Dialogue

Speaker A: Good morning! Welcome to our travel agency. How can I assist you today?

1. **Speaker B:**

Speaker A: Certainly! May I know your preferred destination and travel dates?

2. Speaker B:

Speaker A: We have several packages available. Would you like a guided tour or just the travel arrangements?

3. Speaker B:

Speaker A: Great choice! Do you have a budget in mind for this trip?

4. Speaker B:

Speaker A: Excellent! I'll prepare a detailed itinerary and share it with you. Could you please provide your contact details?

5. Speaker B:

Good Luck
